ABOUT ME

I come from a small town in the small state of Connecticut. I've worked as a freelancer and as a member of a marketing team on a variety of various opportunities that have allowed me to grow as a graphic designer. My work has been used by many companies, including breweries, gyms, apparel companies, musicians, large industrial developers, and real estate firms. I'm a jack of all graphic design trades - branding, illustration, photo/video editing, UI/UX, and packaging. I can handle whatever project you want to throw at me, and I'm excited to grow and learn from every opportunity.
